NOTE: The contents of this document are confidential and must not be redistributed

This is a supporting document for the main technical test document. This will give you an optional shortcut around Aer Lingus's anti-scraping technology.

The following Aer Lingus URL:

https://www.aerlingus.com/api/v2/flights/fixed

Can be replaced with this URL:

https://walg.paxcache.com/api/v2/flights/fixed

E.g:

https://walg.paxcache.com/api/v2/flights/fixed?departureDate=22%2F04%2F2023&destination=LHR,DUB&fare=low&numAdults=1&numChildren=0&numInfants=0&numYouths=0&origin=DUB,LHR&returnDate=29%2F04%2F2023

NOTE you must set basic auth credentials for this to work. You will be issued credentials alongside this document.
